EDUCATION

Bachelor of Technology
Siliguri Institute Of Technology

08/2024 - Present
Branch

- Computer Science

SKILLS

`Html` `Css` `Responsive Design` `Git` `Github`

PROJECTS

Simple Login Page
- This project is a responsive login page designed using HTML and CSS. It features a clean and modern interface with input fields for username and password, a styled login button, and a signup link for new users. The layout is centered with a gradient background and a card-style form, giving it a professional look.

Personal Portfolio
- A simple **personal portfolio website** built using **HTML and CSS** to showcase my profile, skills, projects, and resume. The website includes multiple sections such as Header, About, Skills, Projects, Resume, and Contact, making it easy for others to know more about me.

CERTIFICATES

Responsive Web Design – freeCodeCamp (04/2025)
*Completed freeCodeCamp's **Responsive Web Design Certification**, covering fundamental web technologies including HTML5, CSS3, Flexbox, CSS Grid, and responsive design principles. Built multiple beginner-friendly projects like survey forms, landing pages, and portfolios to apply concepts in real-world scenarios.*
